The Markets

U.S. stock markets were unsettled last week.

President Trump's executive order banning travel from seven predominantly Muslim countries to the United States for 90 days, in tandem with some disappointing earnings reports, inspired turmoil and uncertainty that helped push U.S. stock markets lower early in the week. The Dow Jones Industrial Average dropped below 20,000.

Online Security: Avoiding Account Vulnerability

How many times did you login to a digital account today? It probably was more than once. Some people access digital sites via computer or tablet, but many others rely on their phones. Deloitte recently reported the essentials of life have expanded and now encompass air, water, food, and smartphones:1

"The time it takes for us to pick up our phones in the morning continues to shrink: More than 40 percent of consumers check their phones within five minutes of waking up. As a first thing, we check our IM or text messages (35 percent), followed by emails (22 percent). During the day, we look at our phones approximately 47 times and that number rises to 82 for 18- to 24-year-olds. Once the day is over, over 30 percent of consumers check their devices five minutes before going to sleep and about 50 percent in the middle of the night."

Heart Health Month

February is Heart Health Month

Heart disease is the leading cause of death for both men and women in the United States. The good news? It is also one of the most preventable. Making heart-healthy choices, knowing your family health history and the risk factors for heart disease, having regular check-ups and working with your physician to manage your health are all integral aspects of saving lives from this often silent killer. FEBRUARY IS HEART HEALTH MONTH. Make a difference in your community by spreading the word about strategies for preventing heart disease and encouraging those around you to have their hearts check and commit to heart-healthy lives.
